Detail oriented Developer with 2+ years of experience in the pulp production industry seeking position with IT Team. Excellent analytical and problem-solving skills, being always interested in learning and developing using the latest and most efficient technologies. Certified SAP ABAP developer.

PROFESSIONAL EXPERIENCE

GTCON, *Full Stack Developer*, Belo Oriente, Brazil   **May 2018–Present**

- Solved a showstopper issue that was reducing the company's effectiveness while calculating the optimum timing to extract the pulp from the wood.
- Experience writing Business web/mobile applications in the Cloud (Azure). The integration with Azure AD provided secure SSO for our users. Also, the Cloud made a practical and safe way to publish our products without the need of exposing our in-house servers.
- Introduced my teammates to containers (Docker) and migrated some applications to the Cloud using this technology, which allowed CI/CD, easy management and high availability to our applications.
- Wrote Reports/Interfaces in SAP ABAP handling both Functional and Technical Incidents and Change Requests for the client CENIBRA.
- Experience working on an Agile team (SCRUM).

Celulose Nipo-Brasileira S/A, *Intern*, Belo Oriente, Brazil   **Jan 2018–Apr 2018**

- Developed a library to display Power BI dashboards embedded into SAPUI5 applications, allowing already existing apps to integrate Business Intelligence (BI) components.

EDUCATION

CEFET-MG, Timóteo, Brazil   **2014-2018**

- Bachelor's degree in Computer Engineering.
- GPA: **3.3**/4.
- Created campus first environment for robot soccer competition.
- Two scientific researches involving computer vision, path planning, wifi communication and electronics.

PUC Minas, Distance learning, Brazil   **2019-present**

- Graduate degree student in Distributed Software Architecture.
